Values were computed as follows: if V20131 is greater than zero, then completed education equals 12 plus the value for V20131. For the remaining cases, a value of 1 at V20117 was converted to a value of 12. Otherwise, completed education equals V20120 plus V20125. Education was re-asked of all Heads in 1985. 1993 Head's Completed Education Level

This variable is almost identical to the individual-level variable V30820.

Values in the range 01-16 represent the actual grade of school completed, e.g., a value of 08 indicates that the Head completed the eighth grade. A code value of 17 indicates that the Head completed at least some postgraduate work. This variable contains values from 1993 family-level data, although information about completed education is not asked annually. Values were computed as follows:

If it is not known whether Head attended college (V23290=9) or the number of years of college is unknown (V23293=9), then the value is 99.

If Head attended college (V23290=1), then the value is 12 plus the number of years of college attended (V23293).

Otherwise, if Head did not attend college, (V23290=5), the values are as follows:

- (a) if Head is a high school graduate (V23279=1), the value is 12;
- (b) if Head received a GED (V23279=2), the value is the last grade finished (V23282);
- (c) if Head neither graduated from high school, nor got a GED (V23279=3), the value is the last grade finished (V23287);
- (d) if it is not known whether Head graduated from high school, got a GED, or neither (V23279=8 or 9), then the value is 99.

This variable differs from the individual level variable V30820 in the treatment of Heads who received a GED but did not attend college. The family-level variable value for such heads is the grade completed; for the individual-level variable, the value is 12. Education was reasked of all Heads in 1985. 2003 Head's Completed Education Level

Values in the range 1-16 represent the actual grade of school completed; e.g., a value of 8 indicates that the Head completed the eighth grade. A code value of 17 indicates that the Head completed at least some postgraduate work. Values were computed as follows: If it is not known whether Head attended college (ER23446=8 or 9) or the number of years of college is unknown (ER23449=8 or 9), then the value is 99.

Otherwise, if Head attended college (ER23446=1), then the value is 12 plus the number of years of college attended (ER23449). Otherwise, if Head did not attend college, (ER23446=5), the values are as follows:

(a) if Head is a high school graduate (ER23435=1), the value is 12;

(b) if Head received a GED (ER23435=2), the value is the last grade finished (ER23438);

(c) if Head neither graduated from high school nor got a GED (ER23435=3), the value is the last grade finished (ER23443);

(d) if it is not known whether Head graduated from high school, got a GED, or neither (ER23435=8 or 9), then the value is 99.

Education is asked only when the FU acquires a new Head. In cases where the Head has remained the same person from the previous interview (ER23388=5), this variable has been carried forward from previous years' data with no updating or other change. Education was reasked of all Heads in 1985. See ER24153 for the recency of this information.

This variable differs from the individual level variable ER33716 in the treatment of Heads who received a GED but did not attend college. The family-level variable value for such Heads is the grade completed; for the individual-level variable, the value is 12.

November 2013: Correcting the following four variables: Births to OFUMS in 2003 (ER28077), Number of businesses owned by FU in 2004 (ER27907), Number of businesses owned by Head (ER27912), and Number of businesses owned by Wife (ER27942). Due to further hand look-ups after Release 2 was made, there are 198 cases that have different values for Head and Wife Taxable Income - 2004 (ER27953) and Total Family Money Income - 2004 (ER28037). In addition, we are suppressing previously released variables Beale Rural-Urban Code (ER28043), and Size of Largest City the county (ER28044).

February 2014: For Release 4 we have added four new coded variables in the philanthropy section M12code, M41code, M43code and M52code (ER27510A, ER27634A, ER27644A, ER27667A) and Collapsed Beale (ER28043A). In addition we have dropped fifteen previously released variables from the T-2 (Section R) range (ER27712-ER27726). These were originally released as family level variables for Head and Wife/"Wife" but since they also contain data for OFUMS, we have moved them to the Cross Year Individual File instead.

January 2016: For Release 5 we have added 96 new variables in the T-2 (2003) Income section, 86 of which are about time unemployed for Head (ER27711A1-ER27711B5) and Wife/"Wife" (ER27711F4-ER27711G8), time out of the labor force for Head (ER27711B6-ER27711D1) and Wife/"Wife" (ER27711G9-ER27711J4), and time employed for Head (ER27711D2-ER27711E7) and Wife/"Wife" (ER27711J5-ER27711L1). Head's Completed Education Level

Values in the range 1-16 represent the actual grade of school completed; e.g., a value of 8 indicates that the Head completed the eighth grade. A code value of 17 indicates that the Head completed at least some postgraduate work. Values were computed as follows: If it is not known whether Head attended college (ER27413=8 or 9) or the number of years of college is unknown (ER27416=8 or 9), then the value is 99. Otherwise, if Head attended college (ER27413=1), then the value is 12 plus the number of years of college attended (ER27416). Otherwise, if Head did not attend college, (ER27413=5), the values are as follows:

- (a) if Head is a high school graduate (ER27402=1), the value is 12;
- (b) if Head received a GED (ER27402=2), the value is the last grade finished (ER27405);
- (c) if Head neither graduated from high school nor got a GED (ER27402=3), the value is the last grade finished (ER27410);
- (d) if it is not known whether Head graduated from high school, got a GED, or neither (ER27402=8 or 9), then the value is 99.

Education is asked only when the FU acquires a new Head. In cases where the Head has remained the same person from the previous interview (ER27352=5), this variable has been carried forward from previous years' data with no updating or other change. Education was reasked of all Heads in 1985. See ER28052 for the recency of this information.

This variable differs from the individual level variable ER33817 in the treatment of Heads who received a GED but did not attend college. The family-level variable value for such Heads is the grade completed; for the individual-level variable, the value is 12.

Head's Completed Education Level

Values in the range 1-16 represent the actual grade of school completed; e.g., a value of 8 indicates that the Head completed the eighth grade.

Values were computed as follows: If it is not known whether Head attended college (ER57680=8 or 9) or the number of years of college is unknown (ER57683=8 or 9), then the value is 99. Otherwise, if Head attended college (ER57680=1), then the value is 12 plus the number of years of college attended (ER57683). Otherwise, if Head did not attend college, (ER57680=5), the values are as follows:

- (a) if Head is a high school graduate (ER57669=1), the value is 12;
- (b) if Head received a GED (ER57669=2), the value is the last grade finished (ER57672);
- (c) if Head neither graduated from high school nor got a GED (ER57669=3), the value is the last grade finished (ER57677);
- (d) if it is not known whether Head graduated from high school, got a GED, or neither (ER57669=8 or 9), then the value is 99.

Education is asked only when the FU acquires a new Head/Wife/"Wife". In cases where the Head has retained the same designation of Head/Wife/"Wife" from the previous interview (ER57618=5), this variable has been carried forward from previous years' data. If Head/Wife/"Wife" reports updated education and it is higher than previously reported, then this variable is updated. Education was reasked of all Heads in 1985 and 2009 and, as of 2013, all returning Heads/Wives/"Wives" are asked for an updated education report every wave. Please refer to variable Year Highest Education was Updated-Head (ER57667) for recency of updated education information.

This variable differs from the individual level variable ER34230 in the treatment of Heads who received a GED but did not attend college. The family-level variable value for such Heads is the grade completed; for the individual-level variable, the value is 12.

Non-comparability Notes Appendix

- F-e** A missing data code was allowed for this variable, but values for some comparable variables in other years were assigned.
- F-g** Field widths differ. Truncation of some variables in this list may be necessary. See codebooks.
- F-jj** Background section variable, asked only of new Heads/Wives/"Wives". Data values for cases with same Heads/Wives/"Wives" as in the previous wave have been carried forward from the time when these persons most recently became new Heads/Wives/"Wives" or when the questions were reasked of all Heads/Wives/"Wives". Some of these variables may require updating. See the User Guide or the specific variable descriptions in the codebook. Note that for 1994-1996, 1999 and 2001, data have not been brought forward for same Heads and Wives/"Wives". In 1997, the background sections were rewritten to include a number of new questions; these and many familiar items were reasked of everyone. Education, sibling information, and years worked were, however, NOT reasked. Information was not brought forward from prior waves for these variables. However, from 2003 forward, the data are complete for everyone.
